

Radio module for X Series alarms

Part-No. XW100-DE

All X Series alarms can be linked to a wireless alarm system by the radio module. Should an alarm be triggered, all the other networked alarms activate automatically. This allows larger properties to be optimally protected.

Features:

- Sealed battery for 10 years of operation
- Max. 32 networkable participants
- Button for easy testing of network functionality

Range outside	200 m
Ambient temperature	-10 °C ... 55 °C
Air humidity	< 95 % (non condensing)
Weight	approx. 30 g
