

Leading and Trusted Manufacturer of Premium Safety Rubber footwear

Harvik Rubber Industries Sdn Bhd is the leading and trusted manufacturers of premium safety rubber footwear to battle the risks inherent at the workplace and to enhance safety for every profession.

Established in 1972, Harvik is internationally renowned for products of excellent workmanship and quality, catering to various applications and industries. Our Customers from all over the world have come to trust Harvik's innovative product design, quality manufacturing, solid marketing and service and support.

Located strategically in the Prai Free Industrial Zone of the northern state of Penang, Harvik has an annual production capacity of over one million pairs of rubber safety footwear, Harvik's products are manufactured to international stringent quality standards and are certified to all the major international safety footwear standards in chainsaw, mining, fire, general foot protection, electrical resistance and conductivity, construction, etc.

Our commitment to safety at the workplace is legendary and we strongly believe in not just making good comfortable safety footwear but providing complete footwear solutions.

Among our wide range of products include:

- Fire chainsaw Boots
- Firefighter Boots
- Chainsaw Boots
- Mining Boots
- Dielectric Boots
- Industrial Safety Boots
- Winter Boots

Besides our own products, Harvik can also tailor-make all types of safety footwear to specifications according to customers' requirements.
